

MR20 PRESS WELDER FOR PLASTIC ASSEMBLY

- .Plastics industry
- .Automotive industry
- .Electric products
- .Packaging and Clothing
- .Medikal products
- .Stationery and Toys
- .Food industry
- .Textile industry

FEATURES

- .Time and Energy mode
- .Amplitude control
- .Automatic frequency tuning
- .Weld time
- .Hold time
- .Delay time
- .Afterburst time
- .Touch screen/Rotary encoder
- .Ultrasonic load meter scale
- .Over load, No load, Short circuit, Overtemperature

**MR20 PRESS
WELDER FOR PLASTIC ASSEMBLY**

TECHNICAL FEATURES

- .Operating frequencies 20 KHz
- .Output power 500 to 4000 Watts
- .Weight around 100 Kg
- .Table dimensions 300x400
- .Head cylinder stroke 100 mm
- .Diameter of cylinder Ø80
- .Adjustment of head position 500 mm
- .Air feed 6 Bars
- .Head speed adjustable with manual flow control valve
- .Head pressure adjustable with manual pressure regulator
