

SIEVING SYSTEM

Applications

Powder manufacturer
Refinishers
Metal Industry
Construction Industry
Food Industry Cosmetics
and Pharmaceutical
Industry

SIEVING SYSTEM

Advantages of ultrasonic sieving
More efficient sieving, better powder
quality Better throughput
Reduces oversize grain
Permanent cleaning effect

TECHNICAL FEATURES

Operating frequencies
20,30,35,40 kHz
Output power 400 to 4000
watts Time & Energy Mode
Amplitude Control Automatic
Frequency Tuning Touch
Screen & Rotary Encoder
Ultrasonic Load Meter Scale
Over Load
No Load
Short Circuit
Overtemperature
